

We make things smaller and faster for your messaging and collaboration platforms

Smaller  reducing storage, network needs, and costs

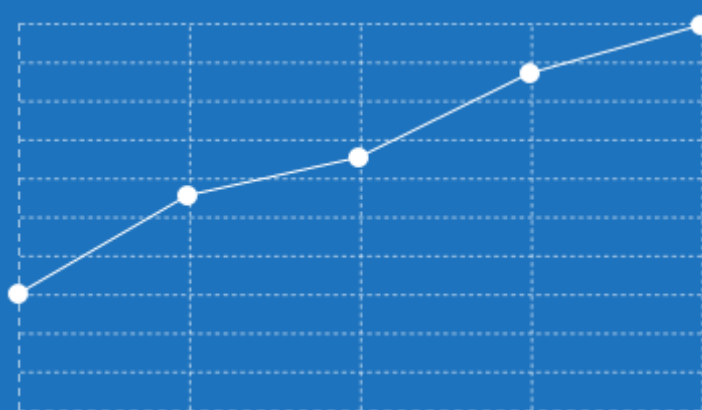

Faster  increasing performance and efficiency

for **Microsoft, IBM and Other** Messaging and Collaboration Platforms:

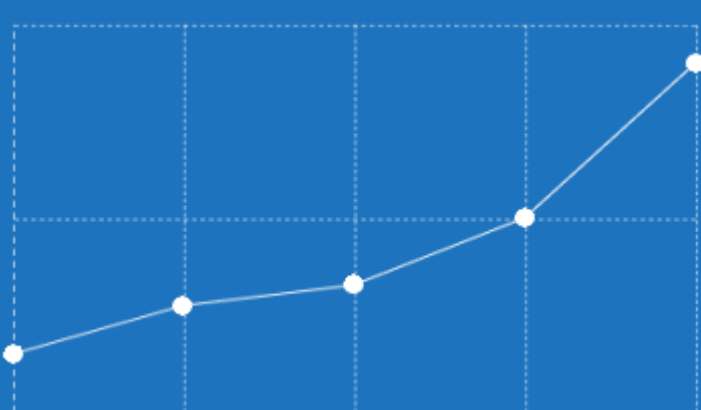

MS Exchange - Outlook - OWA - SharePoint - OneDrive - Skype
IBM Connections - Box - Verse - Domino - Notes - iNotes
Dropbox - Google Drive - Box - Other cloud storage services
WebDAV folders - FTP folders - Network shares

Our optimization software has the power to convert **this:**

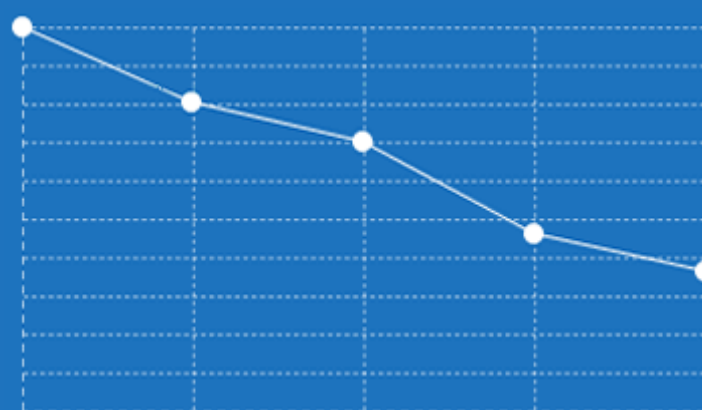

Storage needs

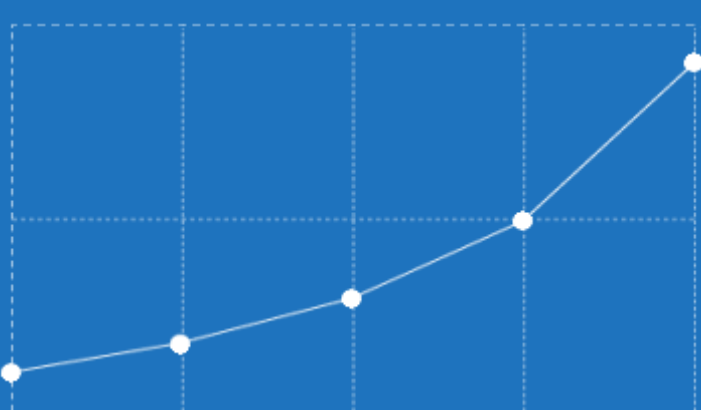

Network needs

Performance

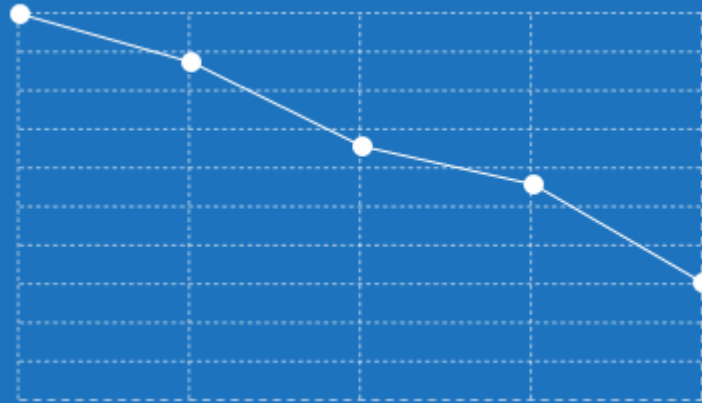

Costs

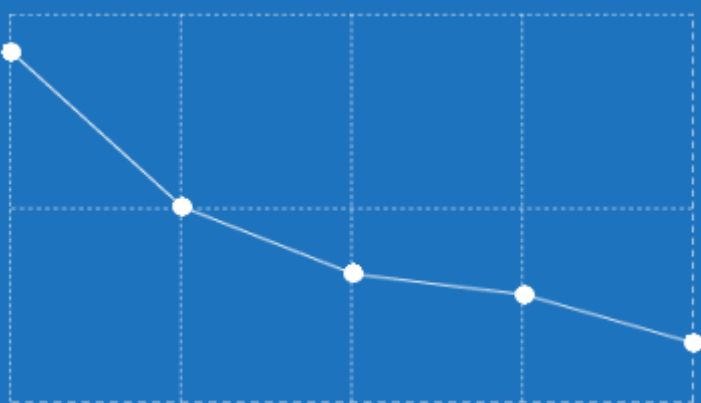

into **this:**

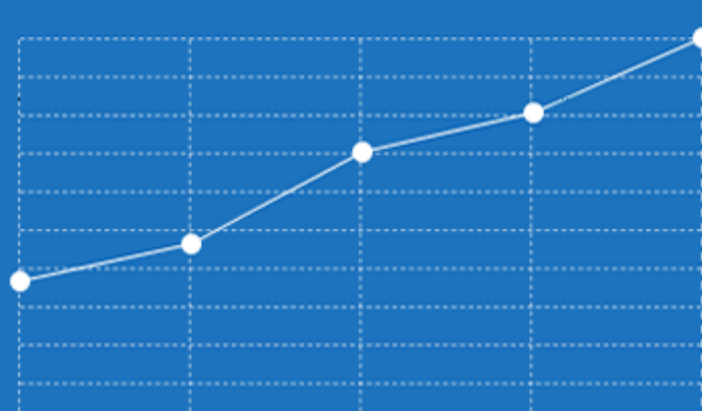

Storage needs

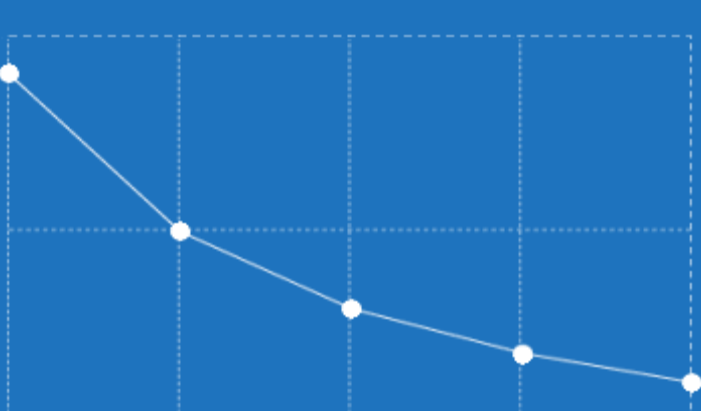

Network needs

Performance

Costs

and because:

our optimization solutions are:

- ✓ 100% automatic, no user action required
- ✓ 100% transparent for the users
- ✓ Very easy to understand
- ✓ Getting installed in minutes
- ✓ Very easy to manage

The optimization benefits come **with no hidden costs** neither for the users nor for your IT team.
